PROFESSIONAL EXPERIENCE

IIMBx

Tech Intern (Institutional EdTech & Digital Transformation)

- **B2B Course Suggestion Engine:** Architected an automated B2B suggestion engine utilizing TF-IDF and rule-based matching with uploaded Excel course catalogs. Streamlined client demand analysis by allowing instant parsing of B2B email inquiries, reducing turnaround time from 2–3 weeks to same-day delivery via automated AI report generation and direct PDF emailing.
- **AI Management Intelligence System:** Developed an AI-powered management intelligence system using Freedcamp and Gemini APIs, giving Project Managers and Tech Leads real-time visibility into team execution, project milestones, resource allocation, and operational bottlenecks.
- **Executive Monitoring Dashboard & Website Modernization:** Built a CEO monitoring dashboard via Google Sheets APIs replacing Tableau reporting. Developed a multi-agent website modernization platform accelerating IIMBx web revamps.
