Community-Powered Group Travel Discovery & Consensus Platform

ABOUT THE PRODUCT

Wandr is an AI-enabled group travel discovery and consensus platform that solves the consensus and safety-verification problems ignored by generic travel tools.

CORE MECHANISM

By administering an interactive group quiz, Wandr aggregates individual preferences and budgets into a shared vibe profile, surfacing underrated, community-submitted spots equipped with safety verification badges and curated stay options.

VISION & MISSION

VISION

To become the definitive travel discovery platform for groups worldwide, ensuring that no traveler ever has to settle for a destination they did not mutually choose.

MISSION

To eradicate group decision fatigue, budget friction, and safety uncertainty by transforming individual preferences into harmonious itineraries through community-powered intelligence.

SUMMARY & KEY LEARNINGS

ASSUMPTIONS VS. REALITY

Assumption: Users would manually weight preferences to reach consensus.

Reality: High survey fatigue led to 42% drop-off in manual weighting tests.

Assumption: AI-only safety ratings would suffice.

Reality: Users demanded ground-truth verification from local moderators.

STRATEGIC PIVOTS

↻ Transitioned to an intuitive swipe-based quiz to aggregate group vibes instantly.

🛡 Integrated a volunteer moderation network to provide the safety trust-layer missing in generic tools.

WANDR IS NOW POSITIONED TO UNLOCK THE OFFBEAT TRAVEL MARKET WITH VERIFIED CONFIDENCE.
